112 YEARS OF RELIABLE SERVICE—Spring Hill Nurseries was founded in 1849 and has continuously served the American Homeowner under the management of one family for 112 years. Peter Bohlender began growing fruit trees in 1849 while gold miners rushed West.

PLEASE ADD POSTAGE

PARCEL POST SHIPMENTS—Spring Hill's low prices, extra quality and careful packaging prohibit us from paying postage charges. Please add 45c minimum postage and packing charge for orders less than \$4.50, and 10% for larger orders. (Example, for \$6.60 order, send 66c). Shipments west of the Rocky Mountains add 60c minimum postage and packing charge for orders less than \$4.50 and 20% for larger orders. Should transportation charges exceed the amount sent, or if you do not include postage, we will bill you for delivery charges at the time of shipment.

EXPRESS SHIPMENTS—Postal regulations will not permit us to ship trees or packages exceeding 5 feet in length. If a package exceeds this size, we will ship it express collect for the balance of delivery charge. Full credit will be given for postage you have sent. \$2.77 is the minimum express charge, so five or ten trees deliver as cheaply as one.

IN EVENT OF ERROR, CLAIM OR REPLACEMENT BEFORE SHIPMENT—If you wish to refer to your order, we must know your ORDER NUMBER. All orders are acknowledged and it is important that you keep the card we mail you since it contains your ORDER NUMBER.

AFTER SHIPMENT—If you wish to refer to your order, please send your ORIGINAL ORDER FORM with your letter or we will be unable to correspond with you. This original order form is returned when shipment is complete.

REMITTANCE—Payment in full should accompany all orders. Money Order, Check or Bank Draft are recommended. Avoid sending cash unless absolutely necessary. If you send silver, wrap it in heavy paper and REGISTER your letter. Sorry, no C.O.D.'s. U. S. SAVINGS BOND STAMPS will be accepted.

Our Guarantee

We guarantee high quality stock, exactly as represented, government inspected, true to name and to arrive safely in healthy, live growing condition. Any plants that reach you otherwise will be replaced free, if notified 10 days after delivery of order.

REPLACEMENTS—We guarantee our plants to grow, bloom and produce if given intelligent handling, proper planting and reasonable care. Weather conditions, carelessness and lack of experience by the planter are conditions beyond our control; regardless of this, Spring Hill will replace any plants that fail to grow at half the original purchase price if notice is made six months after delivery of your order. Please enter complaints immediately and be sure to return your original order blank or sales slip to us or adjustment cannot be made. It is mutually agreed that our liability cannot be greater than purchase price.

Giant Red Emperor

*World's Largest and
Earliest Tulip*

(PICTURED IN COLOR OPPOSITE PAGE)

4B452 — Unquestionably the largest, most magnificent, brightest and earliest blooming of all tulips. Giant, dazzling, brilliant, scarlet blooms on strong 18 inch stems open up to 9 inches across revealing rich scarlet-crimson flowers with a glowing yellow base, ringed in black. Red Emperor blooms in April before the crocus fade, with the Daffodils and Hyacinths weeks before most tulips. People plant them by the hundreds for spectacular effects. Massed in beds, grouped in the garden or arranged indoors, they create a grand sight. Plant 6 inches deep and 6 inches apart in full sun or partial shade.

Guaranteed finest quality, true to name, 10 to 11 c.m. imported Holland bulbs at Low, Low, reduced prices. 5 for 65¢; 10 for \$1.20; 25 for \$2.75; 50 for \$4.95; 100 for \$8.95.

Spectacular Large Flowering DARWIN Tulips

SPRING HILL'S SPECTACULAR RARE FLOWERS

Indoor Amaryllis

Mammoth Blooming

8B011—(Pictured in color opposite page) Imagine 3 to 4 huge, beautiful, brilliant red flowers as pictured often three and one-half inches long, produced in terminal clusters on one long stem. These mammoth bulbs are easily grown and make wonderful indoor blooming plants during the winter months. Pot the bulbs this fall in any good, rich soil, leaving the upper 1/3 of the bulb uncovered above the soil. The bulbs are guaranteed to bloom 6 to 8 weeks after potting. Simply water when needed and give partial sunlight. After flowering the bulbs should be allowed to dry out gradually and go dormant for a rest period before planting outdoors. Bulbs may be planted outdoors after the danger of frost, for summer blooms, but should be dug and brought in the house again in the fall as they are not winter hardy.

Large, 8 to 9 inch circumference bulbs, \$1.00 each; 3 for \$2.75; 6 for \$4.95.

Jewel of Tibet

Gigantic purple flowers large as softballs.

8B005—(Pictured in color opposite page) (*Allium giganteum*) Truly magnificent, rare and unusual, huge sphere-shaped purple flowers 6 to 8 inches across are held majestically erect on sturdy stems 3 to 4 feet tall. The stunning flowers last for 3 to 6 weeks, are eye-catching and outstanding in the garden and make long-lasting cut flowers. Thousands of small, star-like florets with vivid purple petals are tightly set on these large, softball size flowers and sparkle like Oriental sapphires creating a spectacular sight. They bloom in late spring and will attract the entire neighborhood and all of your gardening friends. Plant the hardy bulbs Sept. to Dec. in well drained location. They last for years and multiply. Originating in the foothills of Tibetan Mts. bulbs are hardy in cold climates of America and are easily grown. Order early as we only have a limited supply of these new and unusual flowering bulbs.

Mammoth size flowering bulbs, \$2.95 each; 2 for \$5.50; 4 for \$10.75.

Bird of Paradise

8B062B—(Pictured in color opposite page) (*Sirelitzia reginea*) America's most exotic and unusual house plant prized by flower lovers everywhere. The gorgeous flowers are 3 to 5 inches long and resemble the colorful tropical Bird of Paradise after which they are named. A striking combination of red, yellow, blue and orange, they last for 2 or 3 weeks as cut flowers. Plants grow about 2 ft. tall and wider each season and usually start blooming when 9 to 12 healthy full size leaves have formed. Mature plants growing in tropical climates will have 25 to 40 blooms at a time. Plants are easy to grow and constantly increase in size and beauty but not everyone can get them to bloom successfully, however, they are so beautiful and unusual all should try. Pot in rich soil, keep in sunny location, water frequently and moderately and fertilize in small amounts regularly.

10 to 14 inch, 3 yr. size, \$3.45 each; 3 for \$9.90. 6 to 9 inch, 1 1/2 year old plants, \$1.98 each; 3 for \$5.50.

Fragrant HYACINTHS

No spring would be complete without a bed of colorful, fragrant Hyacinths to perfume your yard. Hyacinths bloom early in April ahead of the Tulips and come up year after year without replanting. They may be potted and forced indoors for winter blooms. Lovely flower spikes are 4 to 5 inches tall, much larger than pictured.

Plus FREE Aluminum Sulphate to make soil acid

Grow these giant, juicy, mouth-watering, marble-size blueberries right in your own yard. The three new U. S. D. A. hybrids we offer will provide fresh blueberries continuously from late June through August. Lovely white flowers each spring are followed by huge, grape-like clusters of sapphire blue, mild, sweet berries, wonderful for fresh eating, for pies and for freezing. The bushes are perfectly hardy, easy to grow and are so attractive you can plant them in your front yard as hedges or in combination with other shrubs and evergreens. The plants will grow

for a lifetime and have glossy, waxed-like green foliage which changes to blazing crimson in autumn. Plant no less than two or more varieties a few feet apart for cross pollination and good fruiting.

Blueberries prefer an acid soil. You can make sweet or alkaline soil acid by mulching heavily with peat, sawdust and oak leaves or by mixing aluminum sulphate. We send sufficient aluminum sulphate with each order for planting the first year. If needed order additional ALUMINUM SULPHATE—23A501—5 pounds \$1.25.

EARLIBLUE—23F085C—The best new EARLY Blueberry—has a very good flavor.

BLUE RAY—23F084C—Fine, new MIDSEASON berry—does well in cold climates.

RA-PID-GRO

The sensational new liquid plant food

33A575C—Spring Hill recommends Ra-pid-gro because it is so easy to use and so beneficial to plant growth. All plants are LIQUID FEEDERS and Ra-pid-gro feeds through the leaves and stems as well as the roots providing an instant source of plant food for extra vitality. Start using Ra-pid-gro in early spring and apply every two or three weeks throughout the growing season on everything you grow. Simply mix this clean, odorless, concentrated fertilizer at the rate of 1 level teaspoon per 1 quart of water and spray or sprinkle on your plants until the solution drips off. 1 pound makes 30 gallons of high power, quick-acting fertilizer that will not burn if applied according to the instructions contained in the feeding booklet included with each order. We are so sure you will be pleased with the results you get from Ra-pid-gro that we will refund your money if not entirely satisfied.

5 pounds \$4.75 • 2 pounds \$2.50 • 1 pound \$1.30
